Immediate Action/Fast Response		QA#		Date Posted	
Rework Details		Alert Owner		Expiration	

# Hey <u>**Before**</u> You Delete This Page!

QualityAlert.io
Created by Quality Engineers for Quality Engineers

<u>I was in your shoes before</u>!

I was a Quality engineer, then Supplier Quality engineer. Doing Quality Alerts were always so powerful, but took an hour plus of my time and were frustrating. **I knew there had to be a better way.** I searched all over the internet, but couldn't find it, so I created it.

➔ Create Quality Alerts in under <u>**FIVE**</u> minutes.
➔ Central Database to Track all Alerts (I've tried to track Quality Alerts as Excel files, it doesn't work.)
➔ Run metrics/KPI's for your alerts
➔ Easy & Intuitive Picture Editing
➔ Automatically have alerts expire. - No need to remember to pull them from the floor.
  ◆ **I've been dinged on a ISO audit for this! Don't let it happen to you.**
➔ Digital TV Board of all Alerts
➔ Easy repost of alerts. (<u>**ONE**</u> minute, really)

Let me help make your life easier and make your manager happy. Contact me to see if QualityAlert.io your your solution. Always happy to provide free advice on your Quality System and Problem Solve together. I have a lot of lessons learned that I'm happy to share.
